

## Lure XIX – Drinking Game Report

This year there was no beer in the knights room and many sorrows befall the participants. But beer is an important gaming material for the tournament, so the tournaments place had to be moved down to the cafeteria.

**20:00** o'clock: The drinkers traveled down to the cafeteria and received starters, boosters and beer. They started building their decks. They also draw proxy site cards and drank. All that takes time ...

**20:45** o'clock: We started round one. Heiner played with Yegor, Oscar faced Kodi and Patric versus David. The folks were cheering and having fun. Patric and Heiner scored 6 points while Kodi got 5.

**21:30** o'clock: Start of break one for pizza and nachos.

**22:15** o'clock: Round two started with quite a big delay. Heiner played with Patric and had a lot to complain about Patric playing A Chance Meeting, Galadriel, Tom Bombadil and Leaflock. Kodi had a rule question of Gandalfs ability to test rings.

**23:00** o'clock: Second break to eat and smoke.

**23:30** o'clock: Final round starts with medium delay. Kodis Long Winter ruined Patrics last turn and lead to a draw. Pawel gave us a visit at Drinking Game and David challenged him to drink Patxarana to prove he got balls. Pawel accepted and won within three seconds.

**00:15** o'clock: Final break for exhausted drinkers started. I took the results and brought them to Wolfgang, tidied up and placed the tables back into the normal position so people could get breakfast next morning.

**End :** Patric won  
Kodi was second  
Heiner was third
